

# Photoshop Project

## Part 1: Architectural Photography-Photoshop

Change the color of *something* in FIVE of your Architectural photographs.

\*Put the original on top of the Photoshopped picture

\_\_\_\_\_ (15 Points)

## Part 2: Any Photographs Taken by You-Photoshop

Pick a picture that has a cool background and Photoshop someone/something into that picture. Create **FIVE** Photoshopped pictures, using only photos that YOU took.

\_\_\_\_\_ (10 Points)

## Part 3: Night Photography- Photoshop

Using your Night pictures, combine them with other pictures YOU have taken. **Need 2.**

Using your Night pictures, combine them with other pictures off the Internet. **Need 2.**

Pick your best Night picture and alter the color of it. Don't add any other photos to this one; just play with the colors of it. **Need 2.**

You will have a total of **SIX photoshopped Night pictures.**

\_\_\_\_\_ (10 Points)

\_\_\_\_\_ **(Total 35 Points)**
